RE: D-48-X26

Memorandum

Project D-48-X26 titled: "South Fulton Revitalization Project: 'Parkway' Presentation System" is not a typical research project. The purpose of the project was to design and implement an interactive presentation system to promote economic development in the South Fulton Parkway area. The IMAGINE group in the College of Architecture has been awarded this contract due to their experience and unique skills needed in for the production of interactive presentation systems.

A system has been designed, computer models built, computer animation and digital videos have been produced, user interactivity has been authored, and all of the hardware, software and content has been integrated.

The final system and all specified deliverables 1throu 6 were delivered to the client in the beginning of May of 1996. The interactive presentation system was presented to the public at the product launch on May 9, 1996 in the Georgia Resource Center.
